

Lesson 17

(5 min)

Announcements:

- Project 2 out soon
- Prep work for the Mock Trial we will have next class

(10 min)

Code Walk Through — optional

- Since some of you were struggling with the adding code part last class
 - Would anyone like me to walk through any part of the code, or adding code?
 - Demo how to add an intent?
 - Something else?
- Have someone document as we go

(40 min)

Pair Programming — [WiseGuy Part II](#)

- Complete as many tasks outlined in the assignment as possible
- Can go in any order
- Added a new Task 5 — don't do this until the very end
- Make sure to complete #1-4 first, before working on #5

(5 min)

Wrap Up

- Any questions?
- Stay tuned for new assignments
- Mock Trial in next class
