Lesson 14

(5 min)
Logistics

(10 min)
Webinar discussion — what you noticed
Questions:
- Intellectual Property — where is the creative line drawn between my idea vs. someone else's?
    - Piracy is any unauthorized copying, use, reproduction and/or distribution of materials protected by intellectual property rights
- IP — how do you know you have infringed on someone else's patent?
    - What if I spend a bunch of time working on a skill and then realize it's already "taken"?
- How to tell if your invocation phrase is unique? Can you search a database or is there a tool you can use?
- Show what a patent looks like

(10 min)
Discussion — User Interviews
- What did people like?
- What did they not like?
- What did they wish for?
- What did you learn?

(25 min)
Breakout groups — Zoom
- Talk about what you learned about your Skill from user tests
- Modify the Skill to better suit the user's needs

(10 min)
Wrap Up
- New Skill Demos? Someone show us what they worked on
- Please commit your code with your group's names in the commit message
- What's coming up?
    - SSML
    - Assignments:
        - Mid semester Survey

- Watch a video on SSML
- Read some documentation about using SSML in Alexa
- We'll play with it in the next class

Resources for SSML:
